1. This Office action is in response to amendment filed 27 September 2005, which papers have been placed of record in the file.

2. Claims 1-20 are allowed over the prior art of record. The following is an examiner's statement of reasons for allowance:

Claims 1, 9, and 17 are allowable over the prior art of record since the cited references taken individually or in combination fails to particularly disclose an automated tape library system, a method for exchanging cartridges between adjacent tape libraries, or a computer program product in a computer readable medium used in exchanging cartridges between adjacent tape libraries comprising said direct translation unit translates a forward and reverse stroke of the moveable transport unit in a first axis parallel to the sidewalls of the tape libraries to a radial movement of said moveable transport unit directed toward and away from said sidewall of the first or second tape libraries, as presented in the environment of claims 1, 9, and 17. It is noted that the closest prior art, Manes, shows an automated tape library system with pass-through ports on the back walls of the first and second libraries. However, Manes fails to disclose the direction translation unit as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
